PROFESSIONAL SUMMARY

Frontend Developer with 4+ years of experience building responsive interfaces, focused on performance and UX. Currently developing **GymBro**, a mobile app for workout partner matching (React Native), featuring geolocation architecture and criteria-based matching. Active daily user of Claude and ChatGPT as development productivity tools.

TECH STACK

Mobile	React Native, Expo, Geolocation (expo-location), User Matching
Frontend	React.js, Next.js, Redux, React Hooks, TypeScript, JavaScript ES6+
UI / Design	Material UI, Ant Design, TailwindCSS, Bootstrap, SASS, LESS, Figma
Testing	Jest, Cypress, React Testing Library
Backend	Node.js, Express, MongoDB, REST API, Firebase, Firestore
AI / Tools	Claude AI, ChatGPT — active daily use
DevOps	Git, Azure DevOps, Webpack, NPM, Yarn, AWS

PERSONAL PROJECTS

GymBro — Mobile App for Workout Partner Matching

Personal project — in development | 2025 – Present

- Building a mobile app in **React Native** with a matching architecture based on schedule, intensity, muscle group, and gym location.
- Geolocation integration to find nearby workout partners (expo-location / Google Places API).
- Sole developer — responsible for the full architecture and development lifecycle, from concept to functional product.

WORK EXPERIENCE

Frontend Developer — Cotraservi (Coob+)

Jan 2022 – Present

- Development of modern, responsive interfaces with **React.js**, focused on performance, accessibility (a11y), and UX.
- Built and maintained **design systems** using Material UI and Ant Design — reusable components and scalable code standardization.
- Integration with **REST APIs** and internal systems in an agile environment.
- Use of **Azure DevOps** for sprint management and CI/CD pipeline.

Frontend Developer — BBChain

Apr 2022 – May 2022 | *Fixed-term contract*

- Development with **React.js**, reusable components, and REST API consumption.
- Testing with **Jest** in an agile sprint environment.

EDUCATION

B.Sc. in Information Systems — Universidade Paulista (UNIP)

2018 – 2021

Courses: React + Redux (Udemy) | React Developer (DIO) | TypeScript (DIO) | JavaScript ES6 (DIO)

HIGHLIGHTS

- Active mobile developer:** building GymBro in React Native with geolocation and user matching — hands-on experience across the full mobile development lifecycle.

- **AI in the workflow:** Claude and ChatGPT as daily productivity tools, with direct impact on code quality and delivery speed.
- **Strong frontend + product mindset:** 4+ years shipping production interfaces focused on performance, accessibility (a11y), and UX — design systems and reusable components at scale.
